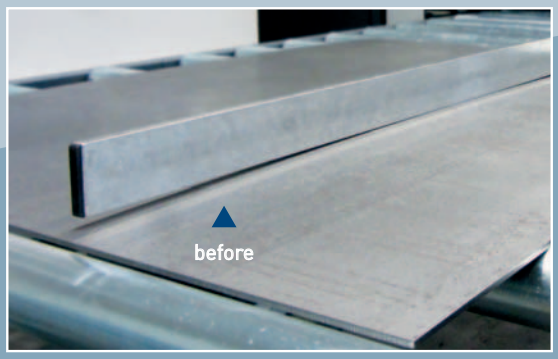
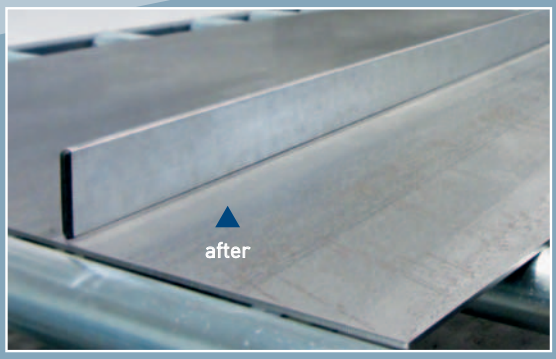
Hydraulic leveler PlateMaster®

for large sheet metals and plates





Features of the PlateMaster®

- Especially for large sheet metals and thick plates
- Robust and invulnerable to dirt
- Easy and quick cleaning of the leveling unit
- Consistently good leveling results due to servo-hydraulic leveling gap control
- Hydraulic overload protection

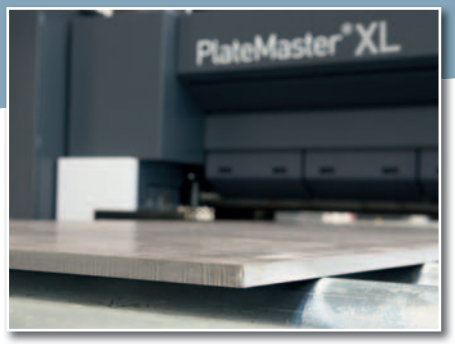
EXPERTS IN LEVELING

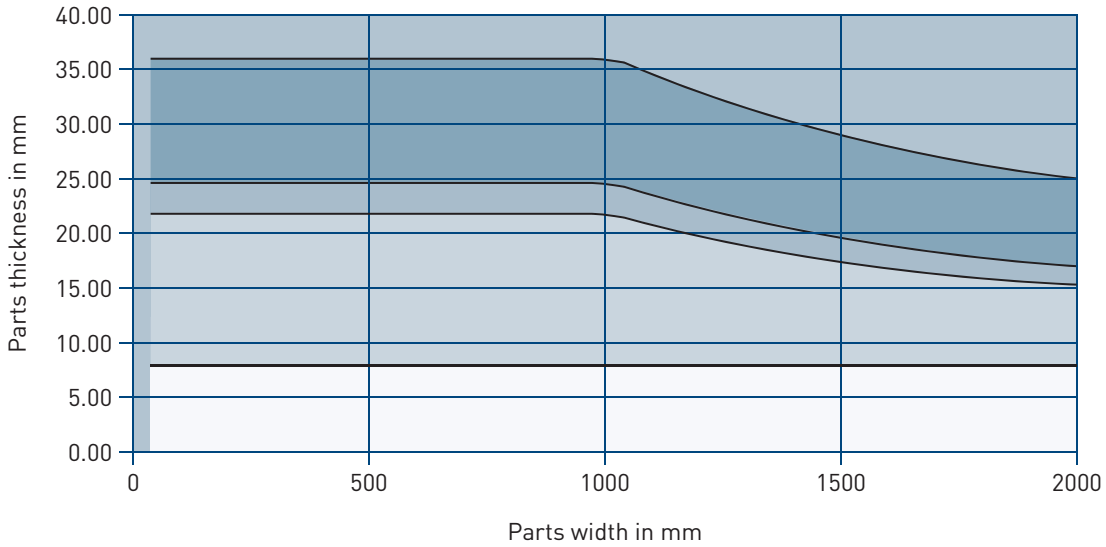
▲ Consistently good leveling results due to servo-hydraulic leveling gap control.

Essential: hydraulic overload protection when leveling thick plates.



Control with multi-touch screen.

Leveling performance diagram of the PlateMaster® XL



yield point Rd 0.2

- 220 N/mm²
- 480 N/mm²
- 600 N/mm²
- lower limit

Max. passage width: 2,000 mm
Min. parts length: 350 mm

Disclaimer: The values, shown in the leveling diagram, are based on experience. In practice, the values can diverge from the diagram shown alongside.
